Welcome To Titchfield Dental Clinic

We believe that we offer an excellent standard of dental care. This leaflet is intended to give you more information about Titchfield Dental Clinic and the services that we provide. If the answer to your question is not included here, please contact us for further information.

Principle Dentists

Lourens du Toit B.Ch.D (Stell)1998
Michael Smith B.Ch.D (Stell)1999

Practice Manager

Andrea Darley-USmar

Care at the practice

We provide dental care for adults and children. All our team undertakes regular professional development to keep their knowledge and skills right up to date.

Services available at the practice

Examination, diagnosis, advice and planning of treatment, preventative care, periodontal treatment, conservative treatment, surgical treatment, orthodontic treatment, cosmetic treatment, dental implants, sedation and supply and repair of dental appliances. Patients can be referred for minor oral surgery such as the removal of wisdom teeth.

Paying for your dental care

All treatment must be paid before completion.

Communication

Good communication with our patients is very important to us and we take time to explain proposed treatment, any risks associated with the treatment and alternatives if available. There will always be time to ask questions about the treatment or any other aspect of care at the practice. As a patient of the practice you can make an

appointment through reception with either of our dentist. You do not have to see the same dentist every time.

Refund policy

We want you to be entirely satisfied with your care and treatment. Should a filling, root filling, crown or bridge fail within a year we will provide free repair or replacement or a full or part refund, depending on the circumstances.

Complaints

If you are not satisfied with the care or service provided at the practice please talk to our practice manager, who will deal with the complaint according to the practice's complaints policy, which is accessible from the practice.

Emergency care

Patients of the practice who have a dental emergency out of hours should telephone 01623 650650 to access the on call number or call 111, who provide telephone advice or gain access to treatment where it cannot be safely delayed until the practice is open again. Patients who do not need to be seen as an emergency but feel that they do need to see a dentist quickly because of dental pain, should telephone the practice

during opening hours and they will be given advice and an appointment at the earliest possible opportunity.

Missed appointments

If you are not able to keep your appointment 24 hours notice is required. A charge will be made for failed appointments.

Easy access

Patients not able to climb the stairs can be seen in a downstairs surgery and disabled access and parking is available at the rear of the practice.

Access to patient's records

Under the Data Protection Act 1998 patients are entitled to access their own records or any other personal information held at the practice. All patient's records and x-rays are stored electronically. Paper copies are available on request in writing free of charge.

Information Governance

If a referral is required and your details need to be sent to a third party we will only do this after obtaining your written consent.
